The Nanometer structure carbon ensures lower heat generation on tire structure

Lowers Heat Generation

Longer Tire Life

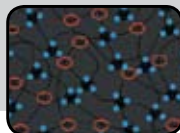

Water evacuation

Four Wide longitudinal grooves ensure quick water evacuation to prevent aquaplaning

Compound formula of Champiro 228 contains high percentage of SILICA to further enhance grip on wet surface

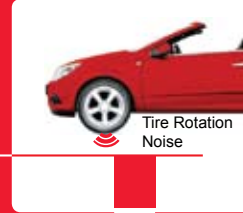

Low noise

Standard Pattern Design

Champiro 228 unique pattern design

REDUCES NOISE BY 40%

The "Frequency Disturber" tread design cancels out noise signals to provide quieter ride

Z-sipes on the shoulder blocks decrease noise without compromising vehicle cornering performance

PERFORMANCE TOURING TIRE

Designed for low noise and comfort, this Performance Touring tire delivers low rolling resistance for enhanced fuel economy and extraordinary grip in wet and dry conditions.

CHAMPIRO 228

Features

NANOTEK Silica Compound

Four wide circumferential grooves

Extended shoulder grooves

Advanced tread design

Produced with Non-Aromatic oils

Benefits

▶ Reduces rolling resistance while providing exceptional grip in wet and dry road conditions

▶ Provides efficient water ejection and outstanding wet performance

▶ Excellent cornering

▶ Quiet and comfortable ride

▶ Greener manufacturing process
